

- + These are tool cabinets with drawers.
- + The drawer heights of the cabinets are between 75 mm-200 mm and can be arranged at steps of 25mm.
- + There are to the ground adjustable M12 ball joint feet at the bottom of the cabinets.
- + There is 18 mm melamine coated chipboard at the upper surfaces, which provide a neat look and a facilitated working possibility.
- + There are 3 mm rubber sheets on the bottom of the drawers and plastic separators with 3 or 4 channels or 3x3 metal separators can be applied on demand

MAXIMAL UTILIZATION

Plastic Separators

+ Our plastic separators are 3 or 4 channelled and prevent the ordering of any type of cutting and wearing tips and that they contact and magnetize.

+ Barcoding and labelling is possible by the labels on the front side.

+ They provide the possibility to store materials with a length between 10mm-900mm.

+ Materials of different sizes can be placed in by arranging the separators in the width and length.

Metal Separators

+ The metal separators can be adjusted from the front to back in steps of 17mm to the desired distance thanks to the E standards complying channels at the sides of the drawers and from left to right in distances of 150mm and 200 mm.

CNC Holder Drawers

+ There are applications for CNC holders at the drawers of the sizes 450x450mm, 600x600mm, 450x900mm.

+ Drawers with special CNC holders from 300mm to 600mm can be applied.
