

Reel Handling with Power

LEMM 

Our systems ensure a problem-free handling

10 good reasons which make LEMM the obvious choice

- Problem-free handling and turning of reels
- Easy operation by one person
- Relieves the operators of heavy physical exertion
- Utmost safety in operation - effective accident prevention
- No loss of material due to damaged edges, even with the most sensitive reeled goods
- Fast amortisation of capital outlay owing to cost reductions effected by the systems
- High versatility allowing facile attachment of the systems to existing lifting equipment
- Quick and easy installation and assembly
- Customer-oriented solutions tailored to individual requirements
- Certifiably conformant to the DIN EN ISO 9001:2000

Type RH
