

## floors

## Features:

- TPBK-EC wheel series:
- polypropylene wheel body with ball bearing
- tread made of thermoplastic rubber, grey, approx. 85° shore A

## Properties:

- runs quietly
- non-marking
- low rolling resistance
- electrically conductive
- the leakage resistance is < 10,000 ohms
- (old designation: TPK-ELF)

***“Electrically conductive smooth-running series”***
