	3710 - WORKBENCH WITH LOWER SHELF AND 3 DRAWERS	25.06.2025

Body Color RAL 5015

Door Color RAL 5015

Product Description

Workbench models are suitable for all types of work environments including assembly, maintenance, technical service, production, and R&D applications.

Product Advantages

Medium-duty workbenches with 5 drawers and a tool hanging panel provide a practical and efficient working environment by allowing additional functional features based on the intended use.

Thanks to their demountable structure, these workbenches are easy to transport and install. Tool hanging panels can be optionally added.

The worktop surfaces can be customized with one of the following options: 2 mm black PVC coating, galvanized sheet metal, or stainless steel sheet metal.

Technical Specifications:

Height	850 mm
Width	1700 mm
Depth	700 mm
Design	Welded
Material	Dkp Sheet Steel
Coating	Electrostatic Powder Coating
Paint Thickness	70-80 microns
Shelf Load Capacity	200kg
Drawer Load Capacity	80kg
Maximum Total Load Capacity	700kg
Weight	108kg
Lock Type	Central Locking System
Product Type	Workbench
Workbench Specifications	The workbench legs and connecting arms are manufactured from 1.5 mm thick sheet metal with a 6-fold bending process.
Drawer Cabinet Body Specifications	Manufactured from 1 mm thick cold rolled (DKP) sheet metal by spot welding method.
Body Color	Ral 5015
Door Color	Ral 5015
