

Body Color RAL 5015

Pegboard Color RAL 5015

Product Description

Product Description

Workbench models are suitable for use in all types of working environments, including assembly, maintenance, technical service, production, and R&D areas.

Product Advantages

Long-type workbenches with hanger panels can be customized with functional features based on intended use, offering the most efficient and practical working environment.

The demountable design of the workbench models provides ease during transportation and installation. Optional features such as drawer cabinets, fluorescent lighting, and electrical panels can be added upon request.

The tabletop surface can also be customized with 2 mm black PVC, galvanized sheet metal, or stainless steel coverings, depending on user preference.

Technical Specifications:

Height	850+550 mm
Width	2000 mm
Depth	700 mm
Design	Welded
Material	DKP Steel Sheet
Coating	Electrostatic Powder Coating
Paint Thickness	70–80 microns
Shelf Load Capacity	150 kg
Maximum Total Load Capacity	400 kg
Weight	97 kg
Product Type	Workbench
Workbench Specifications	Table legs and connecting arms are manufactured from 1.5 mm thick sheet metal with six bends.
Pegboard Specifications	Manufactured from 1 mm thick DKP steel sheet.
Body Color	Ral 5015
Pegboard Color	Ral 5015
